"Both Tech and I agree that Kate is definitely something special." - **Michael "Seven" Summers (Strange Music)**

Through all of her experiences- Kate has evolved into quite the skilled musician over the last 6 yrs. and at 19, her music still reflects a glimmer of childlike innocence mixed with the savvy of her adult self.

Think Stevie Nicks, Janis Joplin, mixed with Joni Mitchell, a hint of Adele, Alessia Cara and samplings of artists like Bea Miller, Colbie Caillat, Florence Welch, Christina Perri, and Skyler Grey to name a few.

Basically, if you were to place a dot on a graph for every female vocalist over the last 50 years- Kate would fall somewhere in the middle.
